

MORLEY SAMS

Morley Soil and Agronomic Monitoring Study

THE
MORLEY
AGRICULTURAL FOUNDATION

OHP3

OHP4

Discover the Morley SAMS Project

Initiated in 2018, Morley SAMS monitors soil and crop performance across 30 sites at Morley Farm annually. This workshop provides an opportunity to understand how best to monitor soils across farms, gain insights into the datasets generated, and see how Morley SAMS is supporting projects that improve our understanding of soil and crop interactions across space and time.

Schedule, 5th November 2024

9:30 AM Start

9:30 AM **Farm Tour:** Introduction to the Farm, Foundation, and Morley SAMS, including practical sampling demonstration/activity.

10:30 AM **Roundtable discussion** over coffee and cake.

11:00 AM **What have we learnt?**
A technical overview of SAMS – Phase 1 (2018-2023).

12:00 PM Close

Please bring: suitable clothing, footwear, and a spade if you have one!
